PRONONCIATION

Parmi les lecteurs français de ce dictionnaire il se trouve, sans doute, un certain nombre qui rencontrent des difficultés de prononciation anglaise et qui n'ont pas de connaissance pratique de l'alphabet de phonétique internationale. Nous nous sommes donc efforcé de dresser à leur intention un tableau simplifié et pratique des sons principaux de l'anglais. Cette notation phonétique, basée en grande partie sur des sons familiers aux lecteurs de langue française, leur permettra de prononcer convenablement les sons anglais. Il ne faut pas oublier que l'anglais et le français ont chacun des sons qui lui sont particuliers et qui n'ont pas d'équivalent exact. Le désir de rendre notre système de phonétique aussi simple que possible nous a parfois obligé à supprimer des nuances de prononciation. Nous n'avons pas pu, par exemple, indiquer toujours les différences de durée de certains sons. Pour ce faire il aurait fallu recourir à un nombre assez considérable de signes conventionnels, ce qui aurait compliqué notre système et créé des difficultés typographiques. Nous croyons donc devoir souligner une dernière fois le caractère approximatif de notre notation phonétique et renvoyer les lecteurs qui auraient le souci de l'exactitude à l'alphabet de phonétique internationale.

Tableau des sons anglais
Voyelles

Notre notation—

a comme en français patte, p.ex., anglais cat (kat); **â** comme en fr. âme, p.ex., ang. bath (bâth); **ó** comme en fr. été, p.ex., ang. mate (mét); **è** comme en fr. mère, p.ex., ang. pen (pèn); **e** comme en fr. chemin, p.ex., ang. offer (o-fe(r)); **(e)** comme en fr. peloton, p.ex., ang. capable (ké-pe-b(e)l).

(Les parenthèses servent à rappeler au lecteur que cette voyelle est atone.)

i aucun équivalent français, p.ex., ang. pith (pith).

(Essayez de prononcer l'i français avec le point d'articulation près du voile du palais.)

ì comme en fr. épine, p.ex., ang. fee (fì); **ìou** comme en fr. biniou, p.ex., ang. tune (tìoun); **o** comme en fr. mors, p.ex., ang. moth (moth); **ô** comme en fr. sot, p.ex., ang. open (ô-p(e)n); **ou** comme en fr. moule, p.ex., ang. poop (poup).

Cette notation **ou** sert aussi à représenter, devant certaines voyelles, la consonne anglaise w, qui n'a pas d'équivalent exact en français, p.ex., ang. warp (ouo(r)p), win (ouin), wail (ouél), wag (ouag), woe (ouô).

oue comme en français Ouessant, p.ex., ang. woo (*oue*-ou), swoon (s*oue*-oun).

Cette notation représente la consonne anglaise w lorsqu'elle est suivie du son ou.

Les notations qui suivent se composent de deux ou de trois voyelles françaises dont la combinaison représente un seul

CC-0. Agamnigam Digital Presevation Foundation, Chandigar

son anglais qui n'a pas d'équivalent en français. Chaque voyelle se prononce comme il est indiqué plus haut. Les italiques servent à rappeler au lecteur, cependant, qu'il faut ne pas détacher les voyelles, mais, au contraire, essayer de les prononcer rapidement d'une seule émission de voix.

a-o, p.ex., ang. occult (o-ka-*e*lt), blood (bl*a*-*e*d); **a-i**, p.ex., ang. height (h*a*-*ĭ*t), smite (sm*a*-*ĭ*t); **aou**, p.ex., ang. scowl (sk*aou*l), blouse (bl*aou*z); **o-i**, p.ex., ang. boil (b*o*-*ĭ*l).

Nasales

a-eng comme en anglais lung (l*a*-*e*ng); **a-ĭng** comme en anglais bang (b*a*-*ĭ*ng); **ĭng** comme en anglais sing (sĭng); **ong** comme en anglais song (song).

Les lettres n et g ne sont pas prononcées séparément. Le ng forme un seul son dont il n'y a pas d'équivalent exact en français. Si l'on prolonge le son ng on n'entend pas le son g on entend une consonne nasale.

Consonnes

b comme en français beau, p.ex., anglais bat (bat); **ch** comme en fr. chose, p.ex., ang. polish (po-lich); **d** comme en fr. donner, p.ex., ang. done (d*a*-*e*n); **f** comme en fr. frère, p.ex., ang. fair (fè-e(r)); **g** comme en fr. gare, p.ex., ang. good (goud); **h** est toujours aspiré; **j** comme en fr. Juliette, p.ex., ang. leisure (lè-je(r)); **k** comme en fr. kiosque, p.ex., ang. kitten (kI-t(e)n); **l** comme en fr. lampe, p.ex., ang. little (lI-t(e)l); **m** comme en fr. mer, p.ex., ang. make (mék); **n** comme en fr. nez, p.ex., ang. nose (nôz); **p** comme en fr. poste, p.ex., ang. post (pôst); **r** comme en fr. repos, p.ex., ang. rest (rèst); (r) Les parenthèses servent à rappeler au lecteur qu'on prononce à peine ce son, p.ex., ang. teacher (ti-tche(r)); **s** comme en fr. savon, p.ex., ang. soap (sôp); **t** comme en fr. tapis, p.ex., ang. taper (té-pe(r)); **th** *th* aucun équivalent français. Ce sont des fricatives interdentales. La première, th, est sourde, l'autre, *th*, sonore. P.ex., ang. bath (bâth), bathe (bé*th*); **v** comme en fr. vaste, p.ex., ang. vast (vâst); **y** comme en fr. yeuse, p.ex., ang. yet (yèt); **z** comme en fr. zéphir, p.ex., ang. resolve (rI-zolv).

L'accentuation des mots anglais est indiquée par le signe ' placé *après* la syllabe accentuée, p.ex., unsophis'ticated.
